

ANDERSON PICKS EASTERN TEAMS TO WIN T. I. A. A.

NOTED SPORTS WRITER SAYS POWER IN EASTERNERS.

Picks W. T. and Daniel Baker to Lead Western Section of the Conference.

"At this early date the balance of the T. I. A. A.'s basketball power appears to rest in the eastern section. On paper the western half does not have a single team capable of holding its own with any of three of the eastern squads," is the statement issued from Abilene, by Prexy Anderson, dean of West Texas Sports writers.

Anderson predicts that North Texas, East Texas, San Marcos and Stephen F. Austin are the stronger teams of the T. I. A. A. He believes that Daniel Baker and the West Texas Buffaloes are the stronger members of the western section of the conference.

"Daniel Baker and the West Texas Teachers are destined to lead the parade on the western front. The Canyon Buffaloes, as a matter of tradition, are looked upon as contenders. If Sam Burton brings forth a winner, however, it will be composed of last winter's reserves, plus new players. Most of the regulars on the 1930 championship quintet, graduated, and the captain-elect, Preach Fuller, has been forced to retire from the game on account of illness.

"The Hill Billies will not be a super-organization. They are, however, seven letter met out for Ed-Blair's squad, and they may be good enough to go into the championship playoff. A. C. C. and McMurray are certain not to be disappointed in their cage campaigns, for neither is expecting anything. Jesse Moody and Bob Fulkerson are the whole of the Indian's experienced material. The big vacancy at Christian College is the place filled last year by Chappie Cheves.

Sul Ross, being without the benefit of a publicity agent, is a question mark, and probably will remain so until its team comes out from the mountain country to meet some of the other entries. They grow tall in that territory, which is an asset in itself. Some day the big Abilene boys may go to shooting baskets and win themselves some games."

2. Canyon Supply Co. \$15.00
3. S. B. McClure \$10.00

In commenting on the results of the contest, President Kleinschmidt of the Chamber of Commerce stated Tuesday morning that he was well pleased with the success and the whole-hearted manner in which the contest was received by citizens of Canyon. He expressed the thanks of the Chamber of Commerce and the business men, who backed the contest, for the splendid co-operation given.

Their report follows:

"The judges felt in regard to the window display of the various firms, that the symbol or feeling of Christmas should be outstanding. It was recognized that a business establishment builds a window display in order to sell goods. The commercial viewpoint must be maintained, but the judges felt that the Christmas spirit should stand out in the window and awake in the observer, thru the spirit of Christmas, the resulting urge to buy. Over crowded windows of wares dissipated the Christmas feeling. Simplicity in both business and home rated first.

"In regard to the homes, the judges voted unanimously for the first three places. Fourth place was at first in doubt.

"The judges felt that a display which carried out a theme, appeals and would appeal to the greatest number of observers.

"Christmas is a time of good cheer, joy and happiness manifested will through the brilliant lights placed beautifully in artistic groupings.

"We could not help but feel that a display which carried out the why of Christmas was more notable than a display which manifested good cheer and happiness.

Mrs. J. M. Lybrand, who won second place in the decorated homes, announced Tuesday afternoon that the \$15.00 in prize money would be donated to the American Legion Charity Fund.

Mr. Carruth states that the purpose of the meeting is to organize a Randall County Ex-students Association of the College. At the first meeting the arrangement will be made for an ex-students page in the 1931 edition of Le Mirage. Mr. Carruth, who is serving as temporary chairman until the organization of the association can be perfected, urges that every person who is an ex-student of the college and who can possibly attend the meeting to be on hand.

Any others who desire the material of the course may enroll as auditors in the class.

Through a special effort to serve the people of Canyon, President Hill has authorized a fee rate of Five Dollars, for persons who wish to take one of these courses for credit, or Ten Dollars for those wishing to take both of these courses for credit. This special rate has been authorized for the present term only.

Anyone in Canyon, (man or woman) may enroll for one or two courses in any department of the college upon the payment of a \$5.00 auditor's fee. Auditors do not receive credit for the work, but have all the privileges of other members of the class. They may attend lectures only, or write the papers required of credit members of the class and take examinations if they wish to do so.

Prizes totaling \$100.00 in cash, contributed by the Chamber of Commerce and business men of Canyon, were awarded as follows:

Business Firms
1. Terry Beauty Salon—\$25.00
2. Canyon Supply Co.—\$15.00
3. S. B. McClure—\$10.00

Homes
1. S. W. Cain home—\$25.00
2. J. M. Lybrand home—\$15.00
3. Mrs. P. L. Britain home—\$10.00

Honorable mention was given the Warwick Printing Company and the Thompson Hardware Company in the business firms and to the G. A. Farlow home and the C. W. Warwick home.

In commenting on the results of the contest, President Kleinschmidt of the Chamber of Commerce stated Tuesday morning that he was well pleased with the success and the whole-hearted manner in which the contest was received by citizens of Canyon. He expressed the thanks of the Chamber of Commerce and the business men, who backed the contest, for the splendid co-operation given.

Their report follows:

"The judges felt in regard to the window display of the various firms, that the symbol or feeling of Christmas should be outstanding. It was recognized that a business establishment builds a window display in order to sell goods. The commercial viewpoint must be maintained, but the judges felt that the Christmas spirit should stand out in the window and awake in the observer, thru the spirit of Christmas, the resulting urge to buy. Over crowded windows of wares dissipated the Christmas feeling. Simplicity in both business and home rated first.

"In regard to the homes, the judges voted unanimously for the first three places. Fourth place was at first in doubt.

"The judges felt that a display which carried out a theme, appeals and would appeal to the greatest number of observers.

"Christmas is a time of good cheer, joy and happiness manifested will through the brilliant lights placed beautifully in artistic grouping.

"We could not help but feel that a display which carried out the why of Christmas was more notable than a display which manifested good cheer and happiness.

Mrs. J. M. Lybrand, who won second place in the decorated homes, announced Tuesday afternoon that the \$15.00 in prize money would be donated to the American Legion Charity Fund.

Albert Terry of the Terry Beauty Salon, winners of first place in the business firms, announced that \$12.50 of the prize money would be donated to the American Legion Charity Fund and \$12.50 donated to the Community Chest Fund.

THIRTY YEARS AGO—WE REMEMBER

When hens were 25c apiece; eggs were two dozen for 15c; butter 10c a pound; the butcher gave away liver and treated the kids with bologna. Women didn't smoke, vote, play poker or dance the Black Bottom.

Men wore whiskers and boots, chewed tobacco, spit on the sidewalk and cussed. Beer was 5c a mug and lunch was free. Laborers worked ten hours a day and never went on a strike. No tips were given to waiters and the hat check grafter was unknown. A kerosene hanging lamp and a stereoscope in the parlor were the height of luxury.

No one ever heard of calories, microbes or were operated on for appendicitis or bought glands. Folks lived to a good old age and walked miles to wish their friends—

A Merry Christmas

TODAY YOU KNOW

Everybody rides in automobiles, or flies; plays golf, bridge or shoots craps; goes to the movies nightly; listens to grand opera over the radio; plays the piano with his feet; smokes cigarettes; drinks hooch; blames the H. C. of L. on his neighbors; never goes to bed the same day he gets up, and makes himself believe he is having one hell of a time.

These are the days of suffragettes, profiteering, rent hogs, excess taxes and prohibition. If you think life is worth living it is a pleasure to extend you—

A Happy New Year

GETTING EVEN

"You look like a fool," thundered the disgruntled man to his son just returned from college. "More and more like a conceited, harebrained, helpless fool, every year."

Just then an acquaintance of the old gentleman entered the office and saw the youth.

"Hello, Jack; back, eh?" exclaimed the visitor. "You're looking more and more like your father every year."

"Yes," said Jack, "that's what the governor's just been telling me."

INDUSTRY SPREADS OUT

Instead of further concentrating in the larger cities, the present tendency of industrial plants is toward the smaller towns, according to a recent magazine writer, who considers this one of the most far-reaching movements of recent years.

Some of the reasons for this decentralization of industry are given, among them being the bringing of factories closer to the raw materials and the ultimate consumer, thus reducing transportation charges; the extension of cheap electric service to the small cities and towns; lower living costs and better surroundings for employees, and in many cases a more intelligent and more dependable labor supply.

Summing up the results which this movement will bring about, the writer says that from now on we may expect to see a marked movement toward these smaller cities and towns, instead of having vast populations necessary for large production herded together in a few big cities.

This trend of industry affords the small towns its opportunity to share in the benefits of industrial payrolls. Besides, the industrial workers create a better market for farm produce. Thus industry and agriculture may go hand in hand in the upbuilding of those communities which take advantage of their opportunities in this direction.

A NATION INDICTS ITSELF

By Bruce Catton

A nation that is cruel to children convicts itself of possession of a very defective sort of civilization; and every once in a while something happens that indicates that we in the United States are not entirely free from that kind of guilt.

In St. Clairsville, O., there was a boy named Johnny Woods. He was 13 years old, and somehow or other he got the wrong kind of start in life. Whether this was entirely his fault is not quite clear. Perhaps there was something lacking in his environment. At any rate John Woods got into trouble.

Another boy, four years older than John, got John to attempt a bit of highway robbery with him. They held up an aged farmer, robbed him of the small change he had with him and then shot him. They were caught, the older boy was sent to prison for life, and John was locked up in the Ohio reformatory.

Some little while after John was put in the reformatory the old farmer died from the wound he had received in the holdup. Guards at the reformatory immediately began to work on 13-year-old John. They reminded him that he was now a murderer and that the penalty for murder is death; and they assured him that he would die in the electric chair.

Then the state of Ohio officially gave color to this weird theory by hauling young John Woods back to St. Clairsville and bringing him up before a judge for sentence. The judge heard the arguments and reserved decision. John was taken back to jail to wait.

What happened was to be expected. John crumpled up completely. He has taken to screaming with terror. His fright at the thought of the electric chair has repeatedly thrown him into convulsions. Intermittently he cries out, "I don't want to be electrocuted." His jailers reported that in his sleep he has horrible nightmares about being "burned alive." Finally, when some extremely kind-hearted jailer told him that it was just possible that he would not be electrocuted, the boy went into a terrific hysterical spasm of relief, screaming frightfully from reaction to his long agony of suspense.

Just what the state of Ohio will eventually do to this boy, who is now 14, isn't clear. Offhand, one would say that it doesn't much matter. His life would seem to be pretty effectively smashed already.

That, right now, is not the point. The point is that this brief, horrible story will tell the historian of the future just about all he will

need to know about the wisdom, pity and understanding of the American civilization of 1930.

NONE TOO OLD TO LEARN

Among the old ideas that have been exploited by scientific research is the belief that soon after maturity one's ability to learn is seriously lessened. After a long series of experiments, Dr. Sorenson of the University of Minnesota declares one may learn as readily at 50 as at 15.

To those who have had the will to learn in later life, this is nothing really new. In fact, it is suspected that the plea of "too old to learn" was invented for those too lazy or too indifferent to try.

Persons who have attained marked success in any calling which involves much mental effort have been obliged to go on learning from year to year in order to keep abreast of new developments. Many have changed to an entirely new

line of work and have won distinction in it after reaching middle age.

Because of rapidly changing conditions in an ever more complex civilization, it will be even more necessary in the future than in the past that education be continued during the entire period of active life. Fortunately, increased facilities for adult education make this possible for any who have the will to take advantage of them.

Scientists who are said to have split the second into millions of parts are not interested apparently in what they do with our time.

If every citizen of this town would do something to beautify his or her property, the effect upon the looks of the community would be remarkable.

Records of Testing Association Show Profit Making Cows and the Boarder Cows Comparison Reveals

In December of last year we gave a report from the Randall county cow testing association designed to show the difference between the good cows and the poor cows. In looking over some of the testing records this year we notice some interesting and very encouraging facts. Last year we selected ten top cows from three herds and compared these with ten low producing cows. The ten good cows produced an average of 394 pounds of butterfat worth \$157.60 (40c per pound) at a feed cost of \$73.87 leaving a profit over feed cost alone of \$83.73. If this butterfat had sold for 20c per pound on last year's feed cost the owners of the good cows would have had left a profit of \$4.93 per cow per year. Contrast this with the ten poor cows—average butterfat 196 pounds at 40c, we have a gross return of \$78.40, less feed cost of \$58.20, leaving a profit of \$20.20. At 20c per pound we would have a gross of \$39.20, then if we subtract the feed cost of \$58.20 we have \$19.00 less than nothing for milking each of the poor cows.

The records of the testing association this year tell a similar story with the exception that when we selected our ten cows from the average of the high cows we have a production of 428.3 pounds of fat; an increase of 34.3 pounds of fat produced at a feed cost of \$55.51 which is a decrease in feed costs from last year of \$18.36. If we figure our butterfat at 40c we would have \$171.32 less feed cost \$55.51, or a profit over feed of \$115.81. Even if we figure our profit on a basis of 20c butterfat we would still have 428.3 pounds at 20c equal \$85.66 less feed cost of \$55.51 or a profit of \$30.15. When we went to the testers records last week to get the dope on the ten low producing cows of last year we found the story of several of them told in one simple word "SOLD" written across the page. So naturally we had to select ten cows that are a little better than the ten of last year's figures. Therefore we find the ten cows producing 202 pounds of fat worth \$80.80, less \$34.13, which leaves an average profit of \$46.67 per cow for the ten low cows.

This shows quite an improvement over the ten low cows of last year. BUT this is only half of the story. The 202 pounds of butterfat average from the low cows is today (Dec. 17) worth only 20c per pound which gives us \$40.40. Then when we subtract the current year's feed cost of \$34.13 we have left only \$6.27 per cow per year. It is well to note also that this feed cost is very low. These cows have been fed some mighty cheap feed this year. In conclusion let us note that our good cows have made a profit on this year's operations, in spite of the low prices, of \$30.15, while the others, even though they are very much better than the average cows of Texas have made a profit of only \$6.27 per cow. If feed prices had been high, as was expected early in the season, our poor cows would not have paid the feed bill. As a matter of fact there are a great many cows in Randall County and other counties for that matter, that are not paying the feed bill this winter to say nothing of profit and other costs.

If all the cows that are losing their owners money were shipped to the butchers the price of butterfat would evidently be improved at once. In other words cut down on production to relieve the surplus,—but cut down on production at the right place.

It has been advocated that the wheat farmer cut down on his acreage to reduce the surplus. However the individual wheat farmer could not improve his position by cutting his production unless other wheat farmers did likewise. With the dairy business is very different. The individual farmer who cuts out his unprofitable cows improves his own position automatically because while he reduces the surplus by taking these cows out of production he may stay in business with that part of his business that will show a profit, and discard that portion which is being operated at a loss. Many a merchant would like very much to do that very thing right now. The method of doing this is not so hard. The dairy farmer may join a cow-testing association and keep an accurate set of books on the production and net profit on his cows, or have the cow-tester do it for him. By this method a herd owner whether he has 50 cows or five may arrive at his own cost of production and eliminate all

cows that do not pay him a profit. A cow producing 200 pounds of butterfat per year may show a profit in one herd owing to good pasture and cheap feed, while the same production in another herd might show a loss owing to higher production costs. I have yet to find a man who joined a cow testing association and faithfully kept the accounts made possible by the testing who did not feel well repaid for all the cost of such membership. It is more important to keep accounts when things are going against us than when every thing is lovely and profits come easily. In the case of the factory it takes more efficient and lower cost production to show a profit when times are bad than when the markets will take everything that they produce at a good price. In the case of the dairyman; it takes a much better cow to show him a profit with butterfat selling at 20c than it takes when fat is selling at 40c. A man might get along and make a little money with a common herd of cows if he could sell on a high market all the time but when the market gets down to the present level it is absolutely necessary that we take stock and see whether or not we can reduce our costs of production by eliminating that part of our business that does not pay. This is made possible for dairy farmers by the cow testing association. The farmer who does not have access to a regular testing association may join a mail order association and follow the same general plan of testing and keeping accounts. The business man who does not keep accounts is just about extinct. He has been forced out by the man who keeps track of the costs as well as the selling price. The farmer is just as much a business man as a merchant or banker. It is becoming more and more necessary that the business man on the farm keep accurate accounts, especially cost accounts. It is a simple matter to keep sales accounts but they are worth little without cost accounts.

Its heavy body, covering capacity, durability and the permanence of its colors, make it a truly exceptional paint.

With all of its fine qualities, High Standard is an economical paint. The total cost of painting and repainting, necessary when cheap paint is used, is much greater than when High Standard is chosen.

THE EAGLE'S TALE

NUMBER 14

VOLUME NO. 5

CANYON, TEXAS, DECEMBER 25, 1930.

School Magazine To Be Published By Eagle's Tale

At last Canyon High has realized her dream of having a separate school publication. Beginning immediately after the holidays a school magazine will be printed twice a month. The staff for the magazine will be the same as the Eagles Tale with a few minor changes.

This magazine will be printed at the school by mimeograph and will cost the students 5c per copy. Complete write-ups of games and outside activities will be contained in this magazine in such a way so the magazines may be filled and a complete record of the year's good times and work may be made.

Now it is up to the student—unless you subscribe the magazine cannot be printed. You have wanted one and now's the time to put it over. At least 100 subscriptions must be obtained among high school students before it can be published. If you want a magazine, turn in your subscription at the Eagle's Tale office Monday, Dec. 29. Subscription for the rest of the year will cost 50 cents.

About the only time a girl detests flattery is when it is directed toward another girl.

Henry Wiggins Former Eagle on Myth Team

Henry Wiggins, an ex-student of C. H. S., was awarded honorable mention in Oklahoma's mythical team.

The entire Oklahoma conference, the winner of which is practically champion of Oklahoma, is composed of the State Colleges: Northeastern, Northwestern, East Central, Central, and Southwestern. Wiggins was one of the two boys who were chosen from Southwestern.

Incidentally, our coach, Mr. Brady, is from Southwestern.

SHOPPING INSTINCT

A young matron in whom the shopping instinct was strong asked a German butcher the price of hamburger steak.

"Twenty-five cents a pound," he replied.

"But," said she, "the price at the corner store is only twelve cents."

"Vell," asked Otto, "Vy you don't buy it down there?"

"They haven't any," she replied. "Ya, Ya," said the butcher, "Ven I don't have it I sell it for ten cents only."

You have got to tell 'em if you want to sell 'em! ADVERTISE!

Boys and Girls Assemble to Hear Help Talks

Wednesday the girls had a very instructive meeting. Talks were given on rules for girls to abide by when keeping company with boys, reasons for restraint while with a boy, reason for desirability of boy friends, and meeting the wrong attitude.

Miss Rusk gave an inspirational talk in which she said to not be serious with boys. Romance has ruined the desirable friendship between boys and girls. No high school students has reached the maturity required before marriage. General observation shows that few boys and girls marry who have gone to high school together and been friends. Every girl needs a boy friend to talk to; they make the girls more broad minded.

Many good points were made, and, if the girls will accept them, they will benefit them greatly in their future friendship with boys.

Some discussion of the question box was given, and the next meeting is to be devoted entirely to the answering of questions.

The boys assembled in the Study Hall last Wednesday in a get-together.

Many songs, led by Broughton Harden were sung, and Bobby Campbell was elected chairman of the boys' assembly.

The boys of the first and second year Latin class gave a short one-act play, "Ludus," Tuesday, December 16, during Home Room period. The characters were:

Magister Oribus—Clarence Wooten.

Discipuli:
Quintus—Earl Ritchie.
Sextus—Edwin Whitfield.
Marcus—Orden Stroud.
Gaus—George Brewer.
Servius—Curtis Bell.

This play did not take up the entire period, so the remainder of the time was spent in playing Latin games.

TYPE HIGH

Tuesday, December 16, the press club held their usual meeting in room 17. The minutes of the last meeting were read and approved, then followed a short interesting program. Vincent Lockhart read a story and Alton Brasuel gave an interesting talk. After the program, various names were voted on for our new paper which is to be published after Christmas.

EL CIRCULO CASTELLANO

On Tuesday, December 16, the Spanish Club met for the last time before the Christmas holidays.

The meeting was opened by the singing of "Jingle Bells" in Spanish. Myrtle Cates, Jessie McDonald, Marie Tanner, Vera Mae Carter, and Margaret Keirsey made interesting talks on "Christmas in Spain." Marie Schroeder told a story of "Mexican Christmas." Arthur Lee Greenfield gave a talk on "Christmas in Honduras." "Christmas Days" was given by Lula Visage. The meeting came to a close by the singing of "Silent Night."

HOME ROOMS

Yes, it's Christmas time again, and in order to get such a spirit throughout the entire school, the home rooms have prepared very delightful programs. They will consist of stories, readings and carols. Some of the rooms will have Christmas boxes, while one section of the Juniors, under the direction of Mrs. Brady, are having a Christmas tree, and the C. H. S. Quartet furnishing music.

It is written that the meek shall inherit the earth, and that's the only way they'll ever get it.

Prone pedestrians might also be characterized as a bumper crop.

Home Economics Students Hold District Meet

Home Economics Clubs from all over the district met at Clarendon Saturday, Oct. 25, for the organization of a district club.

An interesting program was rendered by girls from all the different towns represented.

Girls from Childress, Amarillo, Silverton, Stratford, Hedley, McLean, Clarendon, and Memphis, were present.

The girls assembled at Clarendon College at ten o'clock, and from ten until eleven an interesting program was enjoyed. From eleven until twelve the club was organized. The following officers were elected:

President—Pauline Sanford, Clarendon.
Vice President—Barbara Smith, Amarillo.

Secretary and Treasurer—Bobbie Appling, McLean.

Reporter—Tommie Boren, Memphis.

Parliamentarian—Ada Mae Owens, Clarendon.

A motion was made and carried that we have two other meetings this year. The first one at Amarillo, the first week in December. The other meeting at Memphis, the second week in March.

Various reports were given by girls from Amarillo, Memphis and Shamrock. Loree Webster, chairman of the program committee of Memphis, read the programs planned for the following year. Some of the most interesting were:

1. Debate—Resolved: Modern girl's clothing is more hygienic, more beautiful, and more suitable than grandmother's clothing.

2. How to live twenty-four hours of the day.

3. Home life in Europe.

4. Pictures for the home.

After all business, was discussed, the girls enjoyed a social hour given by Clarendon girls at the Home Economics department.

All schools are urged to attend these district club meetings, and it is hoped much beneficial and interesting information will be obtained from them.

One of the main purposes of these club meetings is to learn what other clubs are doing and to help each other in solving their club problems. If any clubs have special problems they want discussed at these meetings, please send them to Miss Lenora Walters, Amarillo, or Miss Vada Crawley, Memphis, Texas.

A Georgia woman declares four robbers have been into her refrigerator lately, not counting the ice man.

Faculties From Both Schools Hear Three Talks

The faculties of both the Grade and the High School met to hear three very interesting talks.

Mr. Carruth reported the results of his trip to the Teachers Convention at Houston. Amarillo is considered as the next place for this convention.

Miss Weter and Miss Scott told of their trip to Juarez and El Paso. Miss Weter told of the bull fight they saw.

Chapel

The students of Canyon High School had a sample of the work their school band is doing this year, in chapel Thursday. The following numbers were played: Step Lively, Safety, Melody Waltz and Summit.

The upper class girls Glee Club sang: We Three Kings of Orient, The Little Dutch Garden, and the First Noel, all of which were enjoyed very much.

The best quality of hard red winter wheat, says the Department of Agriculture, is produced in the United States. Is this calculated to make the Russian reds turn green with envy?

Edwards Entertains

Students from the Happy and Canyon high schools were the guests at an informal party given at the home of Miss Vara Edwards Wednesday evening.

The playing of games was enjoyed by about twenty young people.

Delicious refreshments were served, and the guests departed declaring that another social mixup between these two schools would be appreciated in the future.

Grade News

"The Class Room Teacher," a set of books in twelve volumes, is the latest contribution to the professional library of the grade school. The teachers are very appreciative of these books as they deal with the methods of teaching every subject in every grade from the first through junior high school.

Each article has been prepared by outstanding leaders in present day educational thought and practice. Dr. Milo B. Hillegas of Teachers College, Columbia University, the editor of the series, has been ably assisted by such men as William C. Bagley, H. O. Ruggs, and Thomas D. Wood of Columbia; Frank N. Freeman and William C. Reavis of Chicago University; Dr. Ernest Horn, University of Iowa; Dr. E. A. Parkins of Peabody College for teachers; and many others representing twelve of the leading universities and teachers colleges.

Much of the content is based directly on accounts of real procedures that have been successfully carried out in progressive schools and will offer many suggestions to the teachers as they study to find means for achieving their specific objective. Faculty meetings will be held to study much of this material in connection with remedial instruction to be given in order that many individuals may reach their grade standard.

The Christmas program given
here Friday night by the Sunday

The singing convention at Sunny

were present from Canyon. There
was special music in the form of
duets, mixed quartets, male quar-

Most successful businesses are

executive dreams too much.

To Our Many Friends and Business Associates

IN THESE days of stress and worry and of poor business and
small profits, we all are inclined to lay too much importance on
the material things in life. We should be thankful for having
good health and happiness and for living to-day rather than a
hundred years ago. There is so much pleasure to be had in this
old world of ours if we keep cheerful in face of adversity and
have faith in the future that God has laid out for us.

'Tis true business conditions have not been good this year.
We have worries, as you do, but we are healthy; we are cheer-
ful; we are happy; and regardless of little arguments and dif-
ferences we may have had, we have enjoyed doing business
with you.

It will soon be 1931. For ourselves we hope to have deserved
your good-will so that the pleasant relationship between us shall
continue for a long time; to you we send our best wishes for a
Merry Christmas and a Happy, Prosperous New Year full of
Good cheer.

THE STATE OF TEXAS

To the Sheriff or any Constable of Randall County, Greeting:

You are hereby commanded to summon S. G. Reddy by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial District, to appear at the next regular term of the District Court of Randall County, Texas, to be held at the Court House thereof, in Canyon, Texas, on the 1st Monday in January, A. D. 1931, the same being the 5th day of January, A. D. 1931, then and there to answer a petition filed in said Court on the 6th day of May, A. D. 1930, in a suit, numbered on the docket of said Court, No. 1238, wherein Realty Trust Company is Plaintiff, and J. W. Reddy and wife, Mrs. J. W. Reddy and S. G. Reddy are defendants, said petition alleging:

That the City of Canyon is a Municipal Corporation, duly incorporated, organized and existing under and by virtue of the General Municipal Incorporation Laws of the State of Texas, and operated under said General Municipal Incorporation Laws at all times mentioned in this petition, had all the powers granted to cities, towns and municipal corporations under and by virtue of said General Incorporation Laws, and having its domicile in Randall County, State of Texas.

That all of the proceedings under and by which said certificate of special assessment, sued on herein, was levied, were had under and in accordance with Chapter 106, Acts of 1927, of the First Called Session of the Fortieth Legislature, shown as Article 1105b of the Revised Civil Statutes of the State of Texas of 1925.

That heretofore, to-wit: on the 30th day of May, 1928 the City of Canyon, acting by its Mayor and City Secretary attested with its corporate seal and executed a certain certificate of special assessment of said date, which was issued by said City to Panhandle Construction Company and its assigns, for the pro rata part of the cost of improving a portion of Third Avenue in said city, payable by the owner of the premises hereinafter described and described in said certificate to with the defendant J. W. Reddy.

That said certificate sets forth and certifies substantially that by virtue of an ordinance of the City Commission of the City of Canyon, Texas, passed on the 7th day of April, 1928, there was levied an assessment in the sum of \$369.00 against certain property in the original Town of the City of Canyon, Texas, fronting 90 feet on the North side of Third Avenue, more specifically described hereinafter, and against the true owner of said premises.

That said certificate further re-

cites substantially that said assessment is payable in six equal installments due respectively on or before ten days, one, two, three, four and five years after the 30th day of May, 1928, together with interest at the rate of 8 per cent per annum from said date, provided that the said owner has the option to prepay any installment before maturity, with accrued interest. Said certificate further recites that said assessment was levied by virtue of the ordinance and previous ordinances and proceedings of the City Commission of the City of Canyon, Texas, providing for the payment by the owner of said premises of his pro rata of the cost of improving a portion of said avenue by virtue of the contract between the City of Canyon and Panhandle Construction Company, dated the 30th day of January, 1928, and that by said proceedings said special assessment was declared and made a lien against said premises and a personal charge against the owners thereof, payable to the said Panhandle Construction Company, or its assigns, in said installments, and if the same shall be made in the payment of any installment of principal or interest when due, then, at the option of said certificate and assessment, the same shall mature and become payable for the full amount of principal and interest, and the same shall be collectible with accrued interest and reasonable attorney's fees and costs of collection, if incurred.

That said certificate recites substantially that all proceedings with reference to making such improvements have been regularly had in compliance with the law and the charter of said city and the terms of the certificate, and that all prerequisites to the fixing of the assessment lien on said premises and claim of personal liability evidenced by said certificate have been performed, and Plaintiff alleges and charges that each and every step provided or required by law, or the charter of said city, or by proceedings as a prerequisite to the making of said improvements and the fixing of said assessment lien and personal liability, and the issuance of said certificate, have been done and performed in accordance with said law, charter and proceedings, and that the assessment evidenced by said certificate and upon the terms therein set forth, is regular, valid and enforceable and is a personal liability against the owners' said premises, and a valid enforceable, first and prior lien upon said premises.

That afterwards the said Panhandle Construction Company duly transferred, assigned, and sold to the Realty Trust Company for a valuable consideration, said indebtedness together with the certificate evidencing the same and all rights, titles, liens and remedies securing the payment thereof, and the Realty Trust Company is the present legal and equitable owner and holder of said certificate and assessment, and entitled to enforce and collect the same in its own name.

Plaintiff alleges that default has been made by the defendants, J. W. Reddy and wife, Mrs. J. W. Reddy in the payment of installments due upon the said certificate for such default the Realty Trust Company has declared the entire amount due, and though often requested the defendants, J. W. Reddy and wife, Mrs. J. W. Reddy have paid no part of said indebtedness, to plaintiff's damage in the sum of \$500.00.

That it is necessary to sue upon said certificate and assessment, and attorney's fees have been and will be incurred, and said certificate has been placed in the hands of the undersigned attorneys for suit, and a reasonable attorney's fee is the sum of \$200 which plaintiff has bound itself to pay, and for which the defendants and each of them are additionally liable.

That the premises described in said certificate and assessment are as follows, to-wit:

All that tract, piece or parcel of land, lying and being situated in the City of Canyon, County of Randall, State of Texas, being Lots Nos. 11, 12 and 13 in Block No. 24 of the Old Town Addition to the City of Canyon, fronting 90 feet on the North side of Third Avenue, and the same are the identical premises described in said assessment and certificate.

SIDERED, Plaintiff prays that the defendants, and each of them be cited and served to answer herein as required by law, and that upon final hearing it have judgment against the defendant, J. W. Reddy for the amount of its debt, including principal, interest, attorney's fee, and costs of suit, and for the foreclosure of its assessment lien against all defendants, and that an order of sale issue, and that said property be sold as under execution and the proceeds applied to the satisfaction of Plaintiff's debt, and for execution, and for such other and further relief, both general and special, legal and equitable as it may be entitled to.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Canyon, Texas, this 3rd day of December, A. D. 1930.

D. 1931, the same being the 5th day of January, A. D. 1931, then and there to answer a petition filed in said Court on the 22nd day of December A. D. 1930, in a suit, numbered on the docket of said Court, No. 1277, wherein Frances Marie Dorman is Plaintiff and William Robert Dorman is Defendant, and said petition alleging that plaintiff and defendant were legally married during January, 1925, and to them one child named Betty Maxine Dorman was born; that soon after their marriage defendant commenced a course of unkind, harsh and tyrannical conduct toward plaintiff, which continued until the separation from him, consisting of cursing and striking her face and right ear with his hand while he was angry, and severely injuring the ear, and constituting excesses, cruel treatment and outrages toward her, rendering plaintiff's living with defendant unsafe and insupportable, resulting in their not living together since June 2, 1929; that during their marriage plaintiff conducted herself with propriety, doing her duty as a wife and treated defendant with kindness and forbearance, and she did not cause the acts of defendant.

To the Sheriff or any Constable of Randall County—Greeting:

You are hereby commanded to summon Mrs. J. H. Hardin by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial District; to appear at the next regular term of the District Court of Randall County, Texas, to be held at the Court House thereof, in Canyon, Texas on the 1st Monday in January A. D. 1931, the same being the 5th day of January A. D. 1931, then and there to answer a petition filed in said Court on the 3rd day of December A. D. 1930, in a suit numbered on the docket of said Court No. 1279, wherein W. B. Hardin is Plaintiff, and Mrs. J. H. Hardin is Defendant; the nature of plaintiff's demand being as follows:

Plaintiff alleges that he is an

actual bona fide inhabitant of Randall County, Texas, having resided there for a period of more than twelve months, next preceding the filing of this petition, that on November 10, 1926, plaintiff was lawfully married to defendant, that they continued to live together as husband and wife until on or about the 19th day of December, 1926, when defendant, without any cause or provocation, permanently abandoned plaintiff. Since which time they have not lived together as husband and wife.

That the marriage relation still exists.

Buy Your 1931 Car License NOW!

The first of January will soon be here, and all automobiles must be equipped with the new 1931 license plates. The Tax collector's office will greatly appreciate having car owners buy their license plates NOW and not wait for the final rush of the month end.

Owners of cars who did not register their cars in Randall county last year must bring with them their receipts of last year before the cars may be registered in Randall County this year.

HEADLIGHTS MUST BE TESTED, AND CERTIFICATE BROUGHT TO THIS OFFICE BEFORE CAR MAY BE REGISTERED.

Pay Poll Tax During December

You will render a great service to the Collector's office if you will pay your poll tax during the month of December. It takes much more time to write a poll tax receipt than it does a property tax receipt.

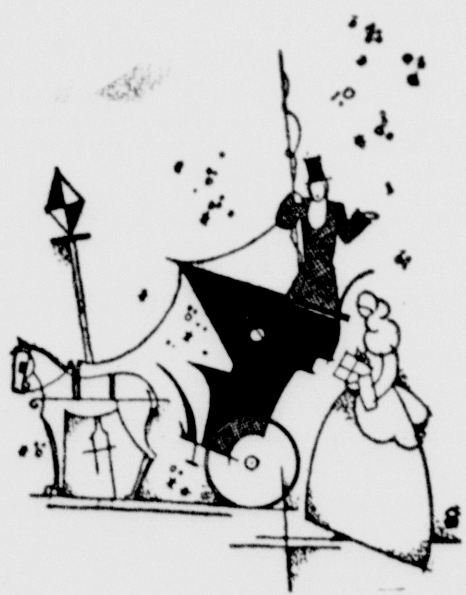

JOHN FRY

Tax Collector, Randall County

To those who are particularly happy at this season because of a first Christmas in a new home . . . and to those who are happy in anticipation of a new home in 1931, sincere best wishes are extended.

And to all others a Merry Christmas and a Happy New Year is the desire of this lumber yard and all the members of this force.

TIME TO INCREASE ADVERTISING IS RIGHT NOW

Right now—today—is the time to increase your advertising. James M. Bennett of Philadelphia, chairman of the advertising section of the American Gas Association, in a recent address before that organization.

"As I see it, advertise and your business succeeds. Stop advertising and your business declines. The

first reaction of the average executive with the approach of hard times is to cut down on advertising. That this is, in the long-run, a short-sighted policy, is amply evidenced by the experience of large national advertisers during the last depression period of 1920.

"Charts showing their relative advertising expenditures and sales during 1920 and the five years following indicated that those advertisers who steadily but conservatively increased their advertising during 1920 and the five years following were rewarded with a consistent and proportionate increase in sales, while those who decreased their advertising showed an exactly proportionate decrease in sales for 1920 and the next five years."

Everyone gets a reputation for something and a few get one for nothing.

After all, nothing on earth can move as rapidly as a thoroughly idle rumor.

Says I to you, the same old tale, "Merry Christmas!"

Yes, I really and truly am sending you all the Scotchman's Yuletide greeting, "A very Inexpensive Christmas and a Very Prosperous New Year."

To all my readers who are troubled with big feet, I hope Santa is kind enough to fill your stocking full.

From the way things blared forth in Shamrock the other day it looks like that town is attempting to take Canyon out of the criminal limelight of the news. But just you wait now that we have the city jail all cleaned up with a new bright, welcoming light over the front door.

It is rumored over town that Coach Burton asks Old Santa to bring him two things. These are a winning basketball team and good crowds at each home game.

A number of Canyon ladies are said to have been inquiring for bottles of medicine to cure the sting of golf bugs, while on their rounds of shopping for their gifts to husbands.

From the mother-in-law I am expecting anything from a dirty dig on up.

For general information, the Christmas Decoration contest did not include those who plan to get lit up for Christmas.

Silence is a wonderful trait, especially when one has nothing to say.

We don't believe that opportunity knocks around with the other knockers.

In the steep climb to success, says the office sage, a little "pull" often counts as much as considerable push.
